Every Google AdWords customer receives a different cookie. This means that there is no way that cookies can be tracked via the websites of AdWords customers. The information that is obtained using the conversion cookie is used to generate conversion statistics for AdWords customers who have opted for conversion tracking. Here, customers find out the total number of users who clicked on their ad and were redirected to a page with a conversion tracking tag. However, they do not receive any information with which users can be personally identified. Our legitimate interest in data processing also lies in these purposes. The legal basis for the use of Google AdWords / Conversion Tracking is § 15 Abs. 3 TMG in connection with Art. 6 Abs. 1 lit. f GDPR.
